Answers 1. 2. 3. 4. 5.

4 Read the following, then answer the questions:

Computers are very common nowadays. They are used everywhere. You can find them in schools, restaurants, hotels, etc. The ideas of Charles Babbage, who was a mathematician, were used for computers. Therefore, people call him "the father of the computer". Babbage was born in 1791. When he was at university, he was better at maths than everyone else. He later became a professor of mathematics. He wanted something which could do sums quickly. In 1822, he invented a machine which was the first calculator. He died in 1871. I think each student should learn computer well, because it is used in all fields nowadays.
