Pros and cons of social media

No doubt that we live in the age of open skies and everything is possible. Thanks to satellite, the world has become a small village. The internet plays an important role in our life. People use the internet for different purposes .Some use it to make chat on the internet. There are many kinds of social media such as face book, twitter and skype .Any current events can be leaked as soon as they happen. Some people use social media to destroy the country such as publishing false news and rumors to mislead people especially those who are against the regime . We should not believe all news. On other hand social media is very important because we know the news of our friends .In brief we can not go without this kind of media.

Egypt carries out new projects to improve our economy

No one can deny that Egypt has started a new era of development and carrying out new projects that may change the future of it. One of these projects is the new Suez canal project. This project will be parallel to the current canal. It reached a length of 72 kilometres. This project will add an extra lane to Suez Canal .It will creates many job opportunists for the next generations. It will attract the foreign and local investments. It will increase the national income and brings in a lot of hard currency. It will facilitate the movement of the ships and eliminate the delay of ships. It will help to establish new cities and new communities. Many factories will be constructed. So we must all co-operate to give a push to such projects and ignore the pessimistic ideas.

Money

Money is a means that can be used well or badly, so I'd rather say that the love of money is the root of all evil, not money itself. Because of money, people steal, kill and bribe. Also, people may envy each other and hate each other. Not a day passes without hearing about a bank robbery or a murder. The reason why such crimes are committed is usually the desire to make a fortune without exerting great efforts. Moreover, the wars that sweep the world are motivated by financial reasons. Even the civil wars which take place between people within the same country are based on financial affairs. In brief, we can say that although having a fortune is a blessing from God, it can be a curse if we misuse it.

(water)اهمية المياه فى حياتنا

No body can deny the fact that water is the main source of life. Without water, life on earth would have come to an end. Man, animals and plants would have died. In fact, water is the main factor in the development of countries both in agriculture, industry and all aspects of life. Man can get water from rain, rivers, wells, seas and lakes. To increase the supply of water, reservoirs and dams have been built to store water for the time of need. As the consumption of water is increasing so rapidly, the world may face a shortage in the quantity of water in the near future. To solve this serious problem, the world should economize the consumption of water especially in agriculture, industry and also in domestic use. In my view, another solution is to have the water recycled to avoid wasting it. More dams and reservoirs should be built. We can obtain water also by desalinating تحليه water from seas. Although this is an expensive method, but we can rely on it if necessary.
